

Tech Rider For "Diggery Digger's Dino Adventure"

Sound

One XLR input into house sound for computer sound out.

One wireless microphone with headset. (I will have mine in case there is a problem.)

Projection System

We will provide Indoor Inflatable video projection Screen and projector.

Props

1 Table 6'X2' Stage Right

Lighting

General green light wash and one spot for stage left to center stage for actor. Important to not light the projection screen and wash out the video. Fog if possible is great too!

Power Outlets

Two on-stage power strips:

One for computer and microphone by the
props table stage right.

Another for the projector center stage
behind the video screen.
